

FRESNO CITYZENS CARD GAME

PRINTING & CUTTING

Print pages 3-8 of the PDF two-sided onto a good card stock. We have this done at FedEx/Kinkos. The front and back will line up perfectly.

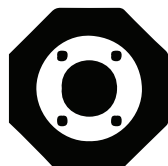

Either have your printer cut and trim the cards, or you can do it yourself by following the slicing guides on the edges of the pages.

PLAYING

These are the rules we have been using at Fresno Cityzens. You are, of course, welcome to change or adapt or make up new rules as you please.

- Place player cards of starting lineup face down. Shuffle and spread.
- Put \$1 in pot to “buy” a player.
- Pick random card from spread. This is your player.
- If your player scores the next goal, use money from the pot to buy beer!
- After each goal, you must “buy” your player again. If you don’t wish to buy your player for next round, put player back and reshuffle. If you all agree, you can put your players back, reshuffle and pick new players for each goal.
- If you keep the same player cards, and your player gets a hat trick, it’s chug time. And a chug for any goals after that for same player. You are absolutely required to take video and post to social media if you chug! These are the rules!
- Subs: If your player is subbed, you can either do a straight replacement for whomever is subbed in, or you can pick a new card.

HAVE FUN! C’MON CITY!
